DIFFRENT USES OF SALT

- 1 - DE-ICING AGENT
- 2 - FOOD INDUSTRIES
- 3 - LEATHER TANNING
- 4 - OIL FIELD CHEMICALS
- 5 - OIL DRILLING COMPANIES
- 6 - CHLOR ALKALINE INDUSTRIES
- 7 - POLY VINYL CHLORIDE MANUFACTURING
- 8 - SODIUM HYDROXIDE MANUFACTURING
- 9 - HYDROCHLORIC ACID MANUFACTURING

DELMON SALT DIVISION

مجموعة شركات دلمون
Delmon Group of Companies

DELSALT

(Sodium Chloride - NaCl)

We employ the latest salt mining & processing techniques and machines to produce a diversified grade of salt to amctch specific and unique needs of different industries.

DELSALT is produced from salt deposits at QURRAYAH in Eastern Province of SAUDI ARABIA processed and treated in a manner to give high purity salt suitable for all major industry usage due to its HIGH PURITY LEVEL and CONSISTENCY in particle shape and size.

A FEW MAJOR APPLICATIONS:

- Chlor-Alkali Industries
- Oilfield Chemicals
- Polyvinyle Chloride Manufacturing
- De-Icing Agent
- Food Industries
- Leather Tanning
- Sodium Hydroxide Manufacturing
- Hydrochloric Acid Manufacturing

Our built-in flexibility in manufacturing and processing enable us to meet and cater to the demands of any grade of RAW or PURE DRIED SALT.

“Quality Product and Reliable Services”
